Freedom of Information (FOI)
Survey Results 2005

Results from the JISC/UUK/SCOP

FOI Survey based on 76 returns received by 14th November 2005
Q.1. How does your institution define an FOI request (i.e. on what basis do you decide whether or not to record a request received)?

There was too much variety in the form of response to provide an accurate statistical analysis. That said four broad approaches to defining an FOI request could be identified:

- Requests for information not included in our Publication Scheme (approx. 4%).
- Any request for recorded information received in written form (approx. 4%).
- The request must specifically mention that it is an FOI request (approx. 11%).
- Requests for information that are considered non-standard or non-routine (approx. 81%).

Q.2. According to the above definition, how many requests have you received during the months January to October 2005

**Summary of main findings and comparators from data derived from Scottish Higher Education Institutions as provided by the Scottish Higher Education Information Practitioners’ (SHEIP) Group.**

---

### Total volume of requests received per month by Scottish institutions

It should be noted that the number of respondents to the SHEIP survey varies over the course of the year and that this naturally has an impact on the total number of requests received as illustrated above. The numbers of respondents are as follows:

- Jan – Apr 16 institutions
- May – Aug 13 institutions
- Sep – Oct 11 institutions (excluding one of the traditionally highest totalling institutions)

---

### Average No. of requests received by Scottish institutions per month
The averages indicated above are based on the actual number of institutions which responded to the survey on any given month.

**Total No. of requests received by category by Scottish institutions**

- Estates and Buildings: 102
- Admissions: 108
- Teaching and Assessment: 13
